
TABLE OF CONTENTS

I. INTRODUCTION	3	IV. GUIDELINES FOR SITE DESIGN	13
A. Relationship to Laboratory Vision & Mission	3	A. Siting	15
B. Relationship to Laboratory Planning Documents	3	1. Siting Notification Process	16
C. Goals of the Design Principles Document	3	2. Accountable Design	17
D. The Design Principles	4	3. Building Location and Site Design	18
II. IMPLEMENTATION	5	4. Site Development Program Checklist	20
A. Process Integration	5	5. Site Analysis	21
B. Design Principles Inclusion	5	6. Security Site Development Issues	22
C. Design Principles Updates	5	7. Safety Site Development Issues	24
D. Project Development Process	6	8. Environmental/Cultural Resource Site Development Issues	26
III. PLANNING AS A BASIS FOR DESIGN	7	9. Utilities & Utility Corridors	29
A. Site Planning Documents	7	B. Circulation	33
B. Comprehensive Site Plan Example	8	1. Road System	33
C. Physical Constraints Map Example	8	2. Parking System	44
D. Operational Constraints Map Example	9	3. Transit System	51
E. Area Development Plan Example	9	4. Bicycle System	52
F. Specific Area Master Plan Example	10	5. Pedestrian System	53
		C. Landscape Elements	63
		1. Security Elements	65
		2. Signage	70
		3. Lighting	75
		4. Paving	78
		5. Site Furnishings	80
		6. Planting Design	83

V. GUIDELINES FOR ARCHITECTURAL DESIGN	91
A. Unifying Architectural Designs	92
1. Architectural Color Palettes	92
2. Unifying Elements	92
B. Building Massing	93
1. Building Design	93
2. Building Form	94
3. Roof Forms	95
4. Building Entries	97
C. Building Articulation	99
1. Facade Articulation	99
2. Fenestration	99
3. Building Skin Materials	101
D. Colors and Materials	102
1. Defined Color and Material Palette	102
2. Color and Material Application	102
E. Specific Planning Area Color Palettes	103
1. Core Area	104
2. LANSCE	105
3. Pajarito Corridor West	106
4. Pajarito Corridor East	107
5. Anchor Ranch	108
APPENDIX	111
A. Acronym List	111
B. Plant List	113
