**General Notes:**

**Designers Notes:**

1. Footings are to be post-installed anchors per project specifications unless otherwise noted.
2. Footings are to be post-installed anchors per project specifications unless otherwise noted.
3. Footings are to be post-installed anchors per project specifications unless otherwise noted.
4. Footings are to be post-installed anchors per project specifications unless otherwise noted.
5. Footings are to be post-installed anchors per project specifications unless otherwise noted.
6. Footings are to be post-installed anchors per project specifications unless otherwise noted.
7. Footings are to be post-installed anchors per project specifications unless otherwise noted.
8. Footings are to be post-installed anchors per project specifications unless otherwise noted.
9. Footings are to be post-installed anchors per project specifications unless otherwise noted.
10. Footings are to be post-installed anchors per project specifications unless otherwise noted.

**Materials:**

- Concrete: 3'x3'x3' minimum
- Steel: #6 bars, #6x6@12" o.c.
- Anchors: 1/2" stainless steel, 3" minimum

**Post Footing Schedule:**

- Anchor Type: 1/2" x 5 1/2" minimum
- Footing Size: 3'x3'x3'
- Foundation Depth: 3'
- Foundation Type: Post Mounted

**Design Notes:**

- Footings are to be post-installed anchors per project specifications unless otherwise noted.
- Footings are to be post-installed anchors per project specifications unless otherwise noted.
- Footings are to be post-installed anchors per project specifications unless otherwise noted.
- Footings are to be post-installed anchors per project specifications unless otherwise noted.
- Footings are to be post-installed anchors per project specifications unless otherwise noted.
- Footings are to be post-installed anchors per project specifications unless otherwise noted.
- Footings are to be post-installed anchors per project specifications unless otherwise noted.
- Footings are to be post-installed anchors per project specifications unless otherwise noted.
- Footings are to be post-installed anchors per project specifications unless otherwise noted.
- Footings are to be post-installed anchors per project specifications unless otherwise noted.

  - Anchor Details
  - Electrical Details

**Code Compliance:**

- Comply with all applicable codes and standards.
- Footings are to be post-installed anchors per project specifications unless otherwise noted.
- Footings are to be post-installed anchors per project specifications unless otherwise noted.
- Footings are to be post-installed anchors per project specifications unless otherwise noted.
- Footings are to be post-installed anchors per project specifications unless otherwise noted.
- Footings are to be post-installed anchors per project specifications unless otherwise noted.
- Footings are to be post-installed anchors per project specifications unless otherwise noted.
- Footings are to be post-installed anchors per project specifications unless otherwise noted.
- Footings are to be post-installed anchors per project specifications unless otherwise noted.
- Footings are to be post-installed anchors per project specifications unless otherwise noted.
- Footings are to be post-installed anchors per project specifications unless otherwise noted.

**Material Specifications:**

- Concrete: Normal Weight
- Steel: ASTM A615 or A706
- Anchors: Stainless Steel

**Project Details:**

- Footings are to be post-installed anchors per project specifications unless otherwise noted.
- Footings are to be post-installed anchors per project specifications unless otherwise noted.
- Footings are to be post-installed anchors per project specifications unless otherwise noted.
- Footings are to be post-installed anchors per project specifications unless otherwise noted.
- Footings are to be post-installed anchors per project specifications unless otherwise noted.
- Footings are to be post-installed anchors per project specifications unless otherwise noted.
- Footings are to be post-installed anchors per project specifications unless otherwise noted.
- Footings are to be post-installed anchors per project specifications unless otherwise noted.
- Footings are to be post-installed anchors per project specifications unless otherwise noted.
- Footings are to be post-installed anchors per project specifications unless otherwise noted.
